

## Workshop/Seminar "Trade-Offs on Decision Making in Land Management"

### CALL for Papers

This workshop "Trade-Offs on Decision Making in Land Management" is organised by the University of Natural Resources and Life Sciences (BOKU) and supported by the Jean Monnet Networks project no. 564651-EPP-1-2015-1-SK- EPPJMO-NETWORK "Sustainable Land Management Network".

The objective of the seminar/workshop is to highlight crucial trade-offs faced by current land management, to explain requirements in decision-making processes of state authorities and to share experiences how to use effective tools in decision-making processes.

The target group for the Seminar/Workshop are researchers, teachers and students.

The workshop will be organized in three stages:

- 21<sup>st</sup> November 2016: Keynotes on the topic "Land Management in an international context" given by invited speakers.
- 23<sup>rd</sup> January 2017: Impulse presentations to the specific topic of "Trade-Offs on Decision Making in Land Management" based on this call for papers.
- 23<sup>rd</sup> January 2017: Group Work based on the impulse presentations and presentation of results in plenary

Proceedings of the workshop containing the extended abstracts and the slides of the presentations of the workshop will be published on the SULANET homepage (<http://sulagnet.uniag.sk>) and on the BOKUlearn platform (<https://learn.boku.ac.at/course/view.php?id=12111>).

English is the official language of the workshop. We welcome submissions from teams (two persons) for impulse presentations (10 minutes). Extended abstracts with a minimum of 1500 characters have to be submitted until 19<sup>th</sup> December 2016 in digital format to the BOKUlearn platform (<https://learn.boku.ac.at/course/view.php?id=12111>).

Topics to be focused on trade-offs include the following:

- Geodata for Decision Making in Land Management
- Land Administration: Cadastre, Land registration and Land Valuation
- Land Use Planning: Contents, Stakeholders and Decision Making Processes

Template for Extended Abstract available on BOKUlearn platform:
